\*Estimated additional economic value of a graduate degrees is calculated by multiplying the total number of degrees produced by the wage premium (beyond a bachelors degree) .

## Relationship between Income and Degrees Produced by Discipline (Size of bubble reflects the number of degrees produced in 2009-10)

### Illinois

**Total Degrees Produced: Associates = 27,910 Bachelors = 33,935 Grad and Prof = 15,419**

**Relationship between Income and Growth in Degrees Produced by Discipline**  
**(Size of bubble reflects the percent growth in degrees over the five years prior to 2009-10)**  
**Illinois**

**Total 5-Year Growth: Associates = 11% Bachelors = 7% Grad and Prof = 10%**

\*Watch for Negative Values
